DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by IACOVELLI (US Pat. 5,350,391).

As to claims 1 and 3, IACOVELLI (Figs. 1-23) discloses a surgical instrument including, for example, an insertion section 52 of a small-diameter pipe, treatment section including jaws 54-56, operation section 50/60 including handles 56, 58, driving rod 66 received in pipe 52 and connected to handle 58 so that a rotation of handle 58 will cause driving rod 66 to rotate treatment section including jaws 54-56 about axis 51 (Fig. 11a) and rod 62 to cause jaws 54-56 to open or close.

Allowable Subject Matter

Claim 2 is allowed.

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 5-10 are dependent to claim 4, therefore are objected to as being dependent upon an objected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
